Professional Summary

Frontend Web Platform Developer with 2+ years of experience building responsive, SEO-friendly business websites, CMS platforms, ERPNext interfaces, and modern web applications using React, Next.js, TypeScript, Tailwind CSS, ERPNext, Frappe Framework, Strapi CMS, and WordPress.

Professional Experience

Web Platform Developer — JPencil Technologies (May 2026 – Present)

- Develop responsive websites using HTML5, CSS3, Tailwind CSS, React, and Next.js.
- Build CMS-safe reusable HTML and CSS components for the company's Website Builder platform.
- Customize landing pages, business websites, and reusable website sections inside the CMS environment.
- Resolve frontend issues, UI bugs, CMS customization requests, and website support queries.
- Open, manage, update, and close client support tickets through the internal workflow.
- Provide dashboard training and website guidance using AnyDesk and UltraViewer.
- Communicate directly with clients through follow-up emails and progress updates until issue resolution.
- Assist with website deployment, CMS configuration, and post-deployment support.

Frontend Developer — Sanvro Technologies (Jan 2025 – Feb 2026)

- Customized ERPNext dashboards, portal pages, and frontend interfaces using the Frappe Framework.
- Developed reusable frontend components using React, Next.js, TypeScript, and Tailwind CSS.
- Integrated Strapi Headless CMS for dynamic content-driven web applications.
- Built business workflow interfaces, dashboards, reports, and REST API integrations.
- Improved application performance, responsiveness, and SEO during Next.js migration projects.
- Automated frontend testing workflows using Playwright.
- Performed Python-based Excel data migration and frontend debugging across ERP systems.
